

Angela Bowers-Plott, M.D.

[SOUTHLAKE DERMATOLOGY]

Specialty | Dermatology—Medical, Surgical and Cosmetic.

Most Important Qualities of the Doctor-Patient Relationship | Trust is the most important part of this relationship. One should feel comfortable discussing any problem with their doctor.

Best Advice to Patients | Wear sunscreen daily that has zinc oxide as a primary ingredient. Retinols or retinoids applied nightly are excellent at treating acne, brown spots, wrinkles and sun damage. Board certified dermatologists have undergone not only four years of medical school, but four more years of specialized rigorous training in dermatology. Trust your skin to dermatology practices.

Why Choose Me | My training at UT Southwestern in dermatology has been a critical part of my experience and training. I served as Chief Resident in Dermatology and past president of the Dallas Dermatological Society. Only trust your skin to the experts—dermatologists that are board certified. I am committed to serving our patients in an excellent and professional manner that utilizes the best that medicine has to offer.

Greatest Professional Accomplishment | Starting Southlake Dermatology in 1999 and helping it grow from two employees to 22 today.

Professional Memberships / Licenses | American Academy of Dermatology, Texas Dermatological Society, Texas Medical Association, Tarrant County Medical Society, Dallas/Fort Worth Dermatological Society, American Society of Dermatological Surgery, Chi Omega Alumnae, American Society of Laser Medicine and the Christian Medical Dental Society.

Charitable Work, Honors or Awards | GRACE Medical Clinic, *Texas Monthly* Super Doctor, *Fort Worth, Texas* Top Doc, Healthcare Hero and the Alpha Omega Alpha Medical Honor Society. We donate a large amount of services each year to all of the surrounding charity organizations which total in excess of \$25,000.

Mission | My faith is an integral part of my work and personal life and I depend on that foundation to guide my decisions and life work. I hope to help people not only with their skin concerns and disease, but also be a support for them in other areas of their lives.

R. Todd Plott, M.D.

[DERMATOLOGY ALLIANCE - KELLER]

Specialty | Dermatology—Medical, Surgical and Cosmetic.

Most Important Qualities of the Doctor-Patient Relationship | Taking time at every visit to communicate and educate our patients is the key to achieving the best possible results.

Best Advice to Patients | As with any visit to a physician, patients should come to the visit prepared, with an open mind and ready to participate in improving their skin health.

Why Choose Me | As a dermatologist, we are the best trained type of medical doctor to care for your skin problems. I have 20 years of dermatology research experience that keeps me on the frontier of developments in

dermatology therapy. I think that my patients benefit from the research experience I bring to each visit.

Greatest Professional Accomplishment My greatest professional contribution has been the invention and development of several dermatology medications. One of my inventions is an oral medication for acne which has become the most frequently prescribed product by dermatologists in the USA.

Professional Memberships / Licenses Board certified in Dermatology, a Fellow of the American Academy of Dermatology, member of the Tarrant County Medical Society and the Dallas/Fort Worth Dermatology Society. Licensed in Texas and California.

Charitable Work, Honors or Awards | I have been established as a consultant for multiple pharmaceutical companies to help bring new products to the marketplace and recognized for my contributions to new drug development. I have a number of patented discoveries in dermatologic therapies and have made many presentations to the FDA's Dermatologic Branch. I have enjoyed participating in multiple mission projects in Nicaragua and have participated in many other charitable projects.

Mission | My personal mission is to have a positive influence on my family, friends and patients. I also hope to grow my new practice to help meet the needs of the community.
