With Valentine's Day coming up, all of us want to give our special someone a unique gift that will show them how much they mean to us. We decided to think of some gifts that will make your special someone feel especially loved. We thought of so many, however, it became necessary to reduce it to the following favorites. Give us a call today to schedule a consultation to help you choose the right gift. If you do not have time for a consultation before Valentine's Day, why not choose a **gift certificate** that we can wrap with a box of chocolates and have it ready for you to pick up. Either way, we guarantee they will be wonderfully surprised, pleased and happy you thought of something uniquely different.

Gift Certificates

Valentine's Favorite #1

Husbands, a **gift certificate** is always a wonderful option as it allows your special love the freedom to choose what she would like.

Simply send an email to us and we will have a cute package containing candy and a blank card ready for your. To make it simple, just click on the link to start your email. [Yes, I would like a gift certificate.](#)

Hair Removal

Valentine's Favorite #2

Just about everyone could give you a place on the body where they would love to have hair removed. For women, it is typically on the upper lip, underarms or bikini line while men might answer with ears and back. Our recommendation for hair removal is with our Hair Removal Laser. This procedure requires a series of six treatments over a six month period of time. As an added bonus, we are discounting our price by 20% when you purchase a series during the month of February.

Makeover

Valentine's Favorite #3

Maybe you want something where your special loved one receives some well-deserved pampering. A nice, relaxing facial followed by a Jane Iredale makeup session is just the answer. A Rejuvenating or Hydrating Facial will set the tone for pampering while Jane Iredale makeup will highlight a fresh, relaxing look. In addition, we can recommend products designed especially to improve their skin.

Body By Thermage

Valentine's Favorite #4

We have been using Thermage for several years to tighten the skin on the face, neck and eyes.

Now, Thermage can be used on the abdomen, upper arms, thighs and buttocks. This is a onetime procedure that allows us to tighten loose skin as a result of aging, childbirth, weight loss, etc. Improvements are seen in 3 months making this procedure ideal for swimsuit season. Everywhere you look,

articles are popping up with ways to flatten the abdomen. Make an appointment today to talk with us about Body By Thermage. During the month of February, we will give away one area of Botox with any purchase of Body By Thermage.

February Specials

The three most important products for your skin include sunscreen, retinol or retinoid (Afirm or Retin A) and antioxidants (Revale or Skinceuticals CEF). During the month of February, we are featuring antioxidants. With the purchase of any antioxidants, you will receive a 20% discount.

These specials are are effective during the month of February, 2008.

These are just a few of our favorites for Valentines. Other tried and true gifts include Botox, Restylane, Fraxel and Derasweep. If you are still not sure, give us a call and let us tell you about them. We would love the opportunity to help you make the right decision. Don't forget that a **gift certificate** is a great option.

Sincerely,

Angela Bowers, MD
