

## To our wonderful patients...

How exciting this year has been so far. We have moved into our new location at 1170 North Carroll Avenue in Southlake. The larger facility means a larger waiting area with more convenience such as internet access, a library and our new retail area. We hope all of you take an opportunity to visit us in the near future. Have a great summer!

## *Ribbon Cutting and Open House*

We held our ribbon cutting and open house on June 22, 2006 with an amazing amount of support from the Southlake Chamber of Commerce and the medical community. With family and friends, we officially cut the ribbon signifying a new era for Southlake Dermatology. Our thanks to all who participated in making this a very special event for all of us.

## *NEW! Cellulite Reduction Treatment*

We are participating in an FDA study with a new radiofrequency device that reduces cellulite and fat. Since the treatment is pending FDA approval, we are able to offer it to you at reduced pricing. Six treatments over a one to two week period is the standard protocol. The treatment is proving to be very effective in reducing fat especially in the abdomen and thigh areas. Give us a call to set up your consultation.

## *Eyes By Thermage*

Thermage is introducing a new tip specifically for the eyes. Eyes By Thermage is the only procedure that smoothes skin texture and decreases wrinkles and hooding in the intraorbital and eyelid region without surgery, injections or downtime. Schedule a free consultation with LaDora or Durenda, our estheticians, to learn more.

## *Fraxel It Away*

Fraxel is the latest resurfacing treatment to reduce age spots, soften and eliminate fine lines and wrinkles as well as stimulate collagen growth. A series of three to five treatments with two weeks between treatments will provide you with dramatic results. This treatment is effective for scars, especially those resulting from acne. With the summer almost over, now is the time to schedule your series.

## *Facial Services*

We now offer three new facials using physician strength products. The Acne Prone Facial is designed to reduce congestion as a result of acne. The TNS Hydrating Relaxation Facial is especially effective for moisture dry skin while the Rejuvenating Facial is designed to wake up tired, dull skin.

**Our Price:** 20% Discount during August, 2006
