We are excited to announce the addition of a physician assistant to our practice beginning July 30th. Beth Jouett, PA-C, has more than 4 years experience in dermatology and attended Texas A&M with Dr. Bowers. We hope to decrease our scheduling wait times with Beth joining us. We will be hosting an open house in the fall to welcome her.

We have revamped our website with more information at your fingertips. If you have any suggestions to make it a better resource, please share your insights!

Lucy Fitness Wear

Lucy's is having a 40% off sale at their store in Town Square this Wednesday, June 20th. We will be present to demonstrate our new Accent machine that treats cellulite and tightens skin. In addition, you will be able to sign up for free giveaways from our clinic. Anna of DFW Boot Camp will also be present for exercise advice and nutritional information. We hope that this trio of services can help you not only look better but feel better too!

Cellulite and Skin Tightening Treatment

As you may be aware, we have participated in a FDA study regarding a new innovative radiofrequency device called Accent. The studies presented at this year's laser meeting in April were very impressive. You can often see improvement in the first 2 treatments.

We recommend 6 treatments both for cellulite and facial skin tightening. To see before and after pictures, click on this link. We have achieved similar results in our practice.

Artefill Day

Come in before July 2nd to have a skin test and consultation for Artefill. We will be having an Artefill special on August 3rd for those who participate. This permanent filler is a safe product that stimulates your own collagen production to help soften wrinkles.

If you are interested in learning more about Artefill, please go to their website www.artefill.com which is very complete and helpful.

We hope to see you at Lucy's.

Sincerely,

Angela Bowers, MD
