Dear Angela,

Dermatology continues to grow and expand its breadth of knowledge both for medical conditions and cosmetically. I attended the annual American Society of Lasers in Medicine and Surgery meeting the first part of April. I was excited to find that our Accent device for cellulite treatment has shown the best results compared to its competition.

Artefill Approved

We now have a great option for patients who love the look of Restylane or Juvederm but want to make it more permanent and cost-effective. Artefill is a safe product that stimulates your own collagen production to help soften wrinkles.

If you are interested in learning more about Artefill, please go to their website www.artefill.com which is very complete and helpful.

Cellulite and Skin Tightening Treatment

As you may be aware, we have participated in a FDA study regarding a new innovative radiofrequency device called Accent. The studies presented at this year's laser meeting in April were very impressive. Now is the time to start your treatments for summer! The Accent was just FDA approved. Book by May 15th and receive our pre-FDA pricing.

We recommend 6 treatments both for cellulite and facial skin tightening. To see before and after pictures, click on this link. We have achieved similar results in our practice.

Heliocare

We now have a pill you can take on the days you know you will be out in the sun to give you systemic protection from sun damage. This is not a substitute for sunscreen but one additional agent you can use to fight off skin cancer and the aging process. Interestingly, we had a patient come to our office last week who just moved here from Europe. She said that all the women in France take this supplement. Research is extensive on this product which came out of Harvard's Wellman Institute. Visit www.heliocare.com.

Our Price: \$ 60

Thank you for your continued support of Southlake Dermatology. Treating patients is what we love to do.

Sincerely,

Angela Bowers, MD
Southlake Dermatology

Save 20%

Please use this this incentive to stock up on your sunscreen and try out Heliocare. We will take 20% off any sunscreen and Heliocare purchase. You may forward this to your friends to let them take advantage. Don't forget Blue Lizard for your kids. Bring this coupon with you or order online at www.mdskinproducts.com which has been revamped for better navigation. If ordering online, type in "SPF20" under discount code.

Offer Expires: May 30, 2007
