Summer is finally fading away leaving us with cool mornings and clear, crisp days. Now our thoughts turn to the upcoming holidays and what we need to do to prepare for them. We have some suggestions we would like to share with you. So, read on to see if something interests you.

#### RevitaLash

*For those eyelashes people envy...*

*It all began because a husband wanted to give his wife a very special gift...RevitaLash was developed by Dr. Michael Brinkenhoff as a special gift for his wife, Gayle, while she was recovering from breast cancer. Intensive chemotherapy treatments had damaged Gayle's once beautiful eyelashes, leaving them sparse, breakable and fragile. After extensive research, RevitaLash was born allowing all of us the luxury of beautiful lashes. Prior to Southlake Dermatology deciding to carry this product, we asked one of our nurses to try it. She now has to clean mascara from her sunglasses due to the result of her trial. RevitaLash retails for \$150 but during the month of November, we are offering a 20% discount so that you can have fabulous lashes by Christmas.*

#### Frown Lines and Crow's Feet?

*Answer: Restylane and Botox*

We often hear "I look tired all the time and I'm not. What can I do?" As we age, we lose volume in our face causing us to look tired. Restylane offers volume while Botox relaxes those crow's feet around our eyes giving us a much needed boost. Now is the time to beat the holiday rush and make your appointment to "refill and relax." Bring this newsletter with you to your next Restylane or Botox appointment and receive 50% off of any one skin care product purchased before 2008.

#### Brown Spots

*What can I do?*

Chemical peels are a great way to fade your brown spots and tighten the skin. Our medium depth peel has been a mainstay in dermatology for the past 20 years proving itself to be effective, safe and affordable. Now until the end of the year, you can bring a friend to have a facial medium depth peel and only pay for one. (\$700 is our standard price) We will also do a complimentary peel on your neck and hands.

### **Bronzing...**

*Something for our guys*

There are many additions to Jane Iredale makeup including **Bronzer For Men**. With a SPF of 18, this product is everything His Excellency needs for skin that not only looks good but is also protected. Get him to try this new product by making a dual appointment with Kay to review skin care products and make-up for both of you.

### **Dry, Itchy Winter Skin**

Yes, winter is just around the corner when we will start to have that dry, itchy winter skin. To avoid this skin condition, we recommend the use of CeraVe cleanser and moisturizers which contain Ceramides, a unique ingredient that dermatology has found to be extremely helpful in repairing the skin. This over the counter product will assist you in this battle.

RevitaLash, Restylane, Botox, Chemical Peels and Jane Iredale makeup are just a few of the products and services we offer because we are excited about the difference we can make in your appearance. We, at Southlake Dermatology, use these products and believe in them. That is why we want to share them with you prior to making your holiday plans. If you are not sure, gift certificates are available, which will include a beautiful Peacock Alley headrest pillow if the gift is \$300 or more. Give us a call today to discuss any of these products and services.

**Sincerely,**

Angela Bowers, MD Jennifer Aranda, MD Beth Jouett, PA-C
